The Essence of Sailing

Founded by Michel Hof, designed by Hoek Design, built by Hutting Yachts

DISCOVER THE ESSENCE LINE:

Timeless Elegance, Modern Performance

The Essence line seamlessly blends classic beauty with cutting-edge sailing technology, crafted for sailors who value both luxury and performance. Designed by naval architect André Hoek, these yachts feature a proud, timeless silhouette above the water and advanced sailing capabilities below.

Inside, style meets craftsmanship, offering unmatched comfort and class—perfect for those who cherish the freedom of the sea. Whether for a relaxed daysail, sail racing or global cruising, the Essence line delivers versatility and sophistication.

Available in six models

Essence 27

Essence 33

Essence 44

Essence 54

Essence 60

Essence 74

Essence 27

The Essence 27 is the perfect daysailer, designed to set sail as soon as possible with no interior except for a toilet and a coolbox. The exterior layout is optimized for spectacular sailing performance, combined with ultimate control and comfort, to make the most out of a great day on the water.

The boat is trailerable, eliminating the need for an expensive mooring in sunnier destinations. You enjoy agility, flexibility, and the freedom to go wherever you desire.

Specifications

- Overall length including bowsprit: 8,20 m
- Beam overall: 2,20 m
- Standard draft: 1,40 m

Prices start from: € 150.000,-

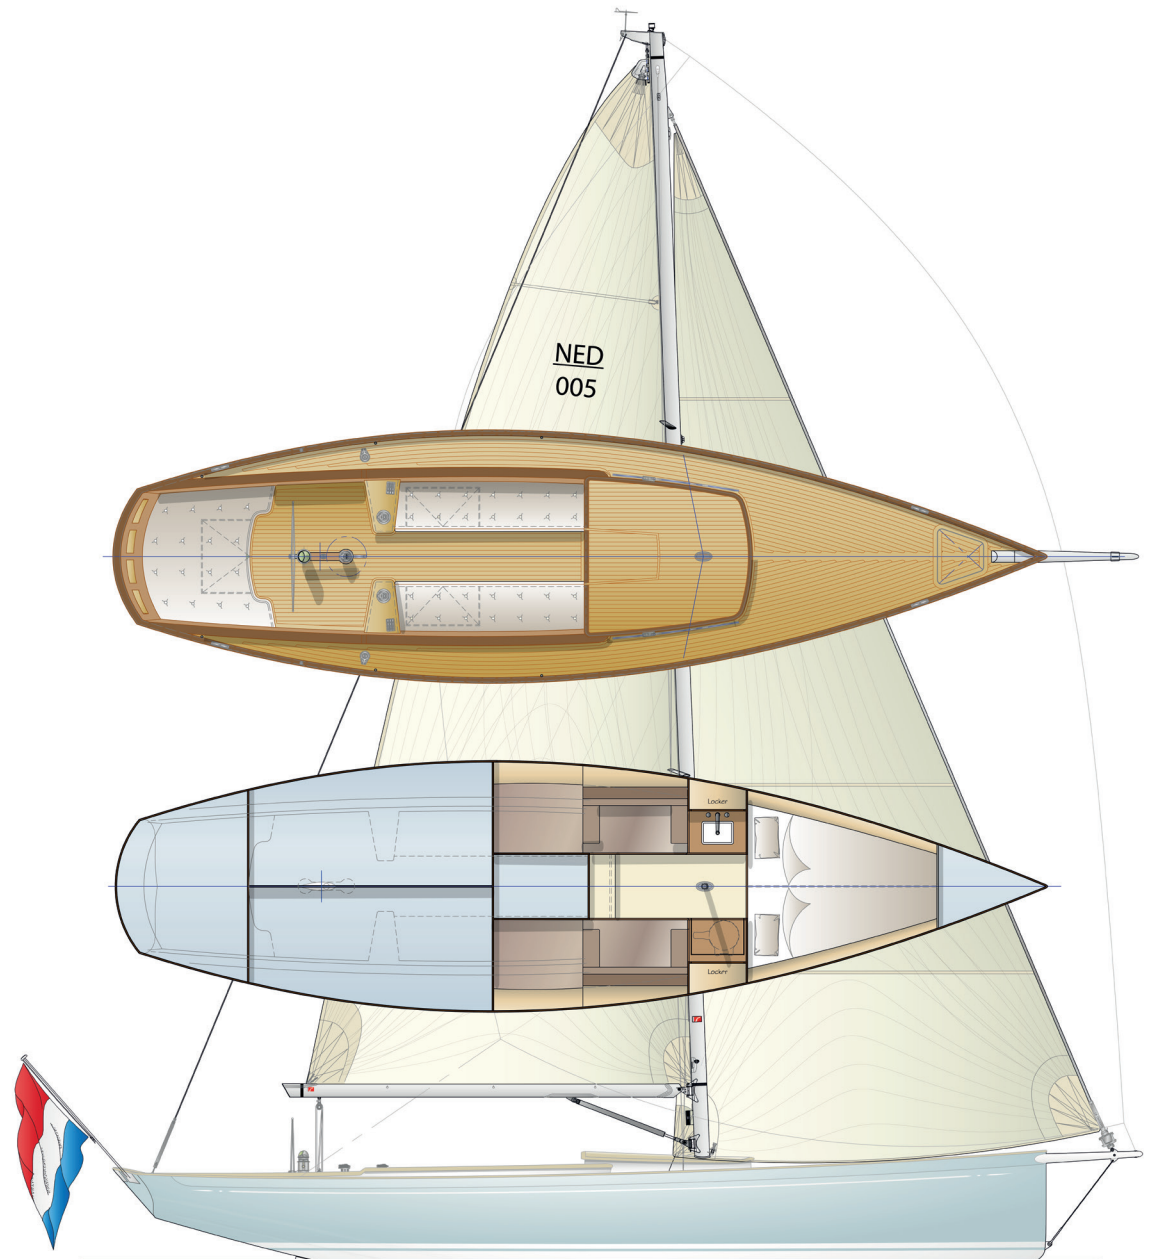

Essence 33

The Essence 33 is designed as a daysailer/weekender. The exterior layout is prepared for spectacular sailing performance, yet equally suited for a sunny, lazy afternoon in the bay with fewer sails hoisted. Imagine a day on the water, surrounded by freedom and luxury, with a fine glass of wine and a well-stocked cooler. Both the interior and the deck offer ample space and comfort for such occasions. Despite its generous dimensions, the boat is trailerable, eliminating the need for an expensive mooring in sunnier destinations. You enjoy agility, flexibility, and the freedom to go wherever you desire.

Specifications

- Hull length: 10,12 m
- Overall length including bowsprit: 11,17 m
- Waterline length: 7,80 m
- Beam overall: 2,70 m
- Standard draft: 1,80 m
- Optional draft: 1,20 / 1,40 m
- Displacement (lightweight): 2.750 kg
- Keel and keel structure weight: 850 kg

Prices start from: € 300.000,-

Essence 44

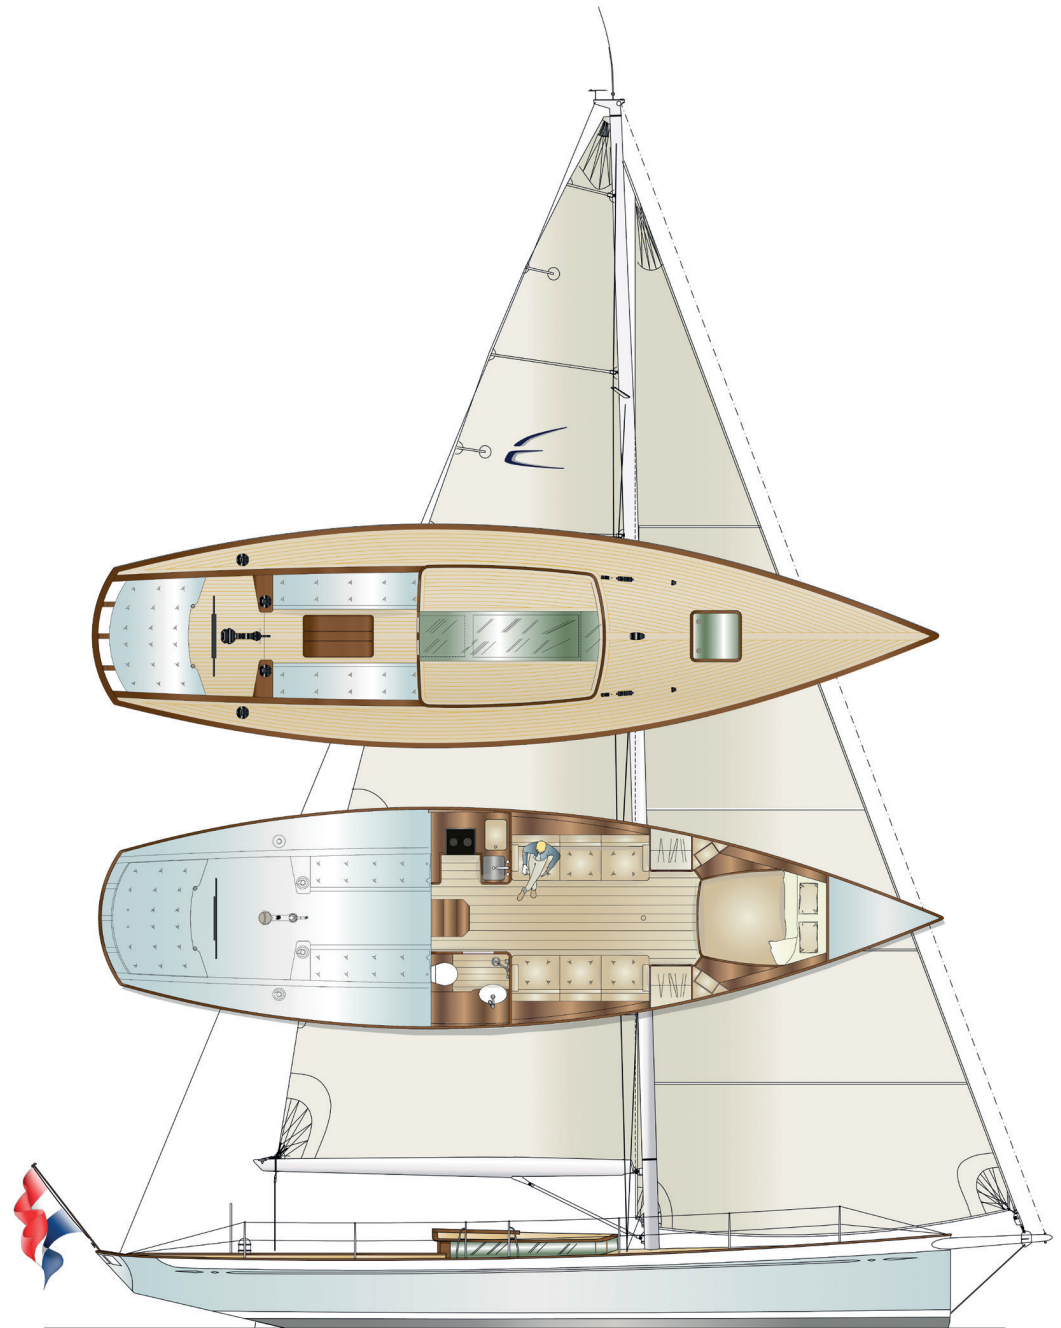

The perfect weekender. The Essence 44 is designed for the sailing enthusiasts who appreciate style, quality and performance. These yachts are truly beautiful, combining timeless elegance with state-of-the-art sailing performance. Ideal for a weekend trip or holiday spent on the water.

The signature of Hoek Design, the renowned design studio, is evident in every detail. Above the water, the yacht showcases its proud, classic silhouette; below, it reveals cutting-edge sailing capabilities.

Specifications

- Hull length: 13,80 m
- Overall length including bowsprit: 15,45 m
- Waterline length: 10,70 m
- Beam overall: 3,80 m
- Standard draft: 2,50 m
- Displacement (lightweight): 9.000 kg

Prices start from: € 800.000,-

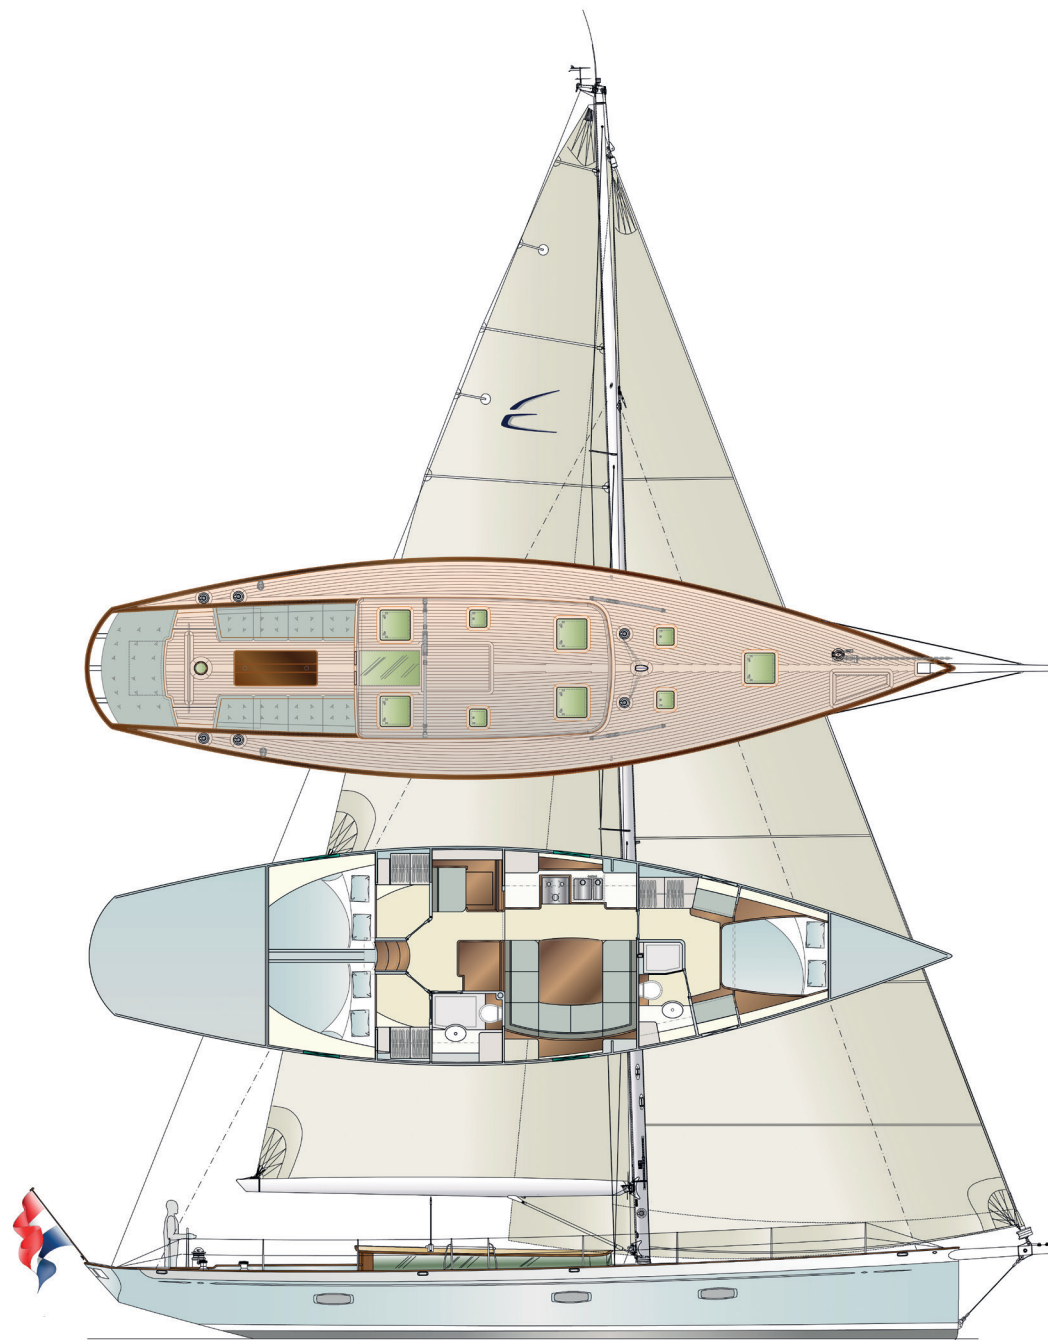

Essence 54

The Essence 54 is designed for extended holidays from a permanent berth, although it can be sailed around the world. It is more of a performance cruiser, for the avid sailor who wants to put some real nautical miles on in their spare time. Again, a large cockpit, a perfect finish and a sophisticated combination of performance and comfort.

Specifications

- Hull length: 16,60 m
- Overall length including bowsprit: 18,80 m
- Waterline length: 13,36 m
- Beam overall: 4,20 m
- Standard draft: 2,70 m
- Displacement (lightweight): 16.000 kg

Prices start from: € 1.500.000,-

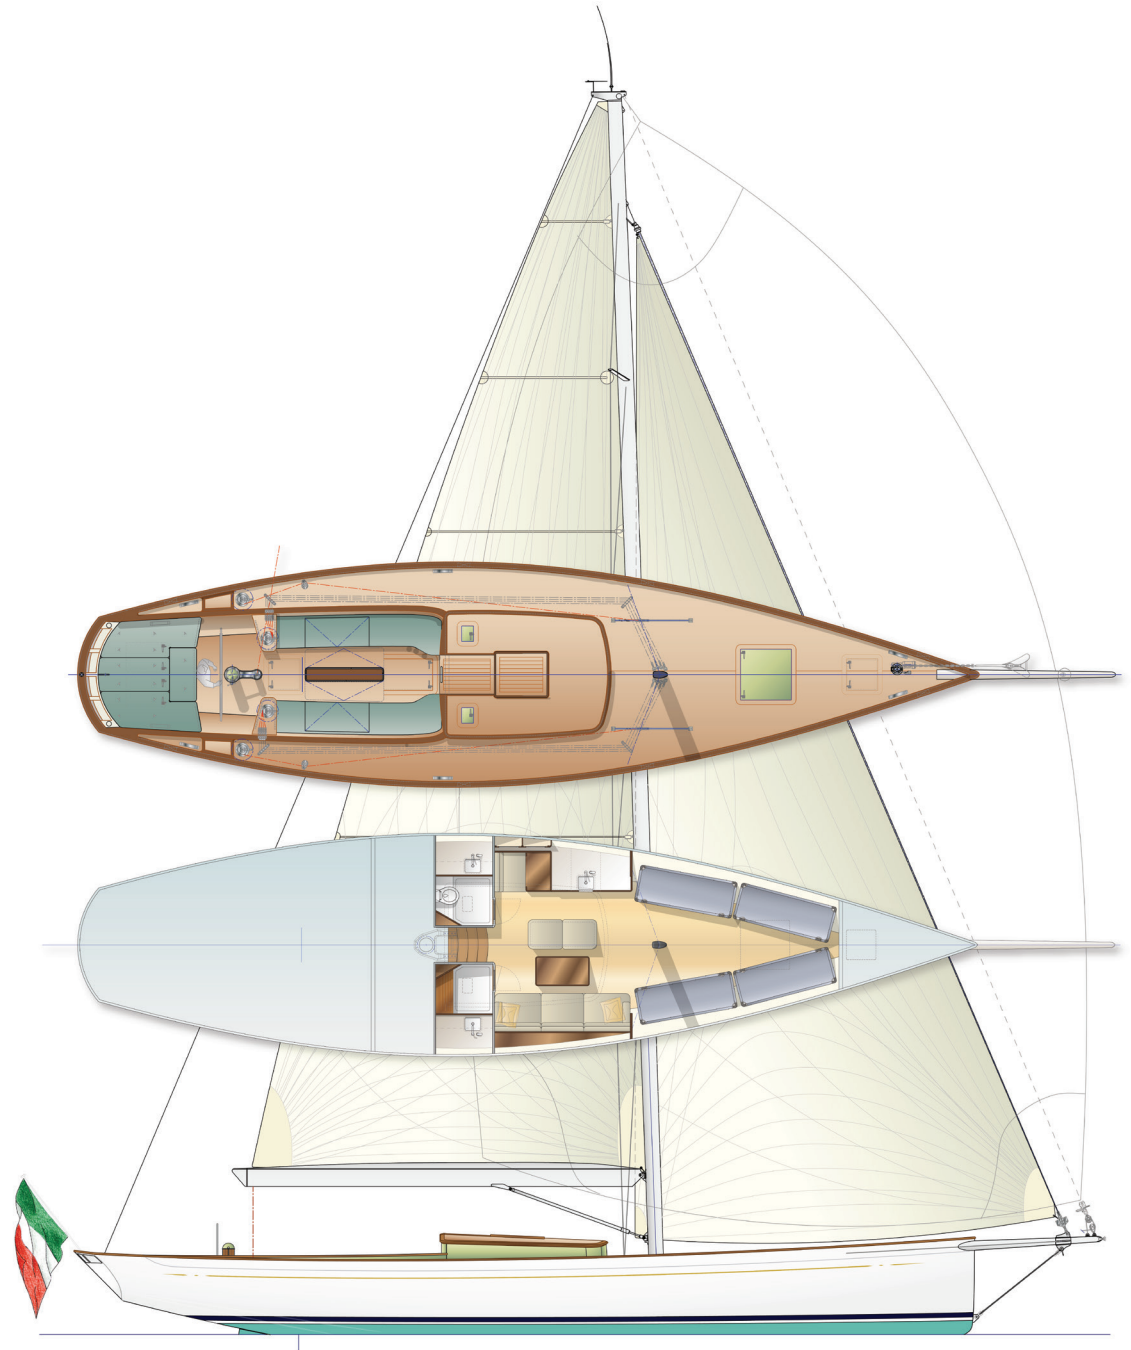

Essence 60

Discover the 60-foot yacht, expertly designed to deliver the perfect balance of a daysailer's agility with the stability and speed of a larger sailing yacht. Built for racing, this vessel promises exceptional sailing performance whether you're cruising along the coast, embarking on bluewater adventures, or competing in regattas. And beyond all that, she's a yacht that enhances the view of any bay where she drops anchor.

Specifications

- Overall length including bowsprit: 18,30 m
- Beam overall: 4,55 m
- Standard draft: 3,40 m

Prices start from: € 2.500.000,-

Essence 74

The Essence 74 is a true cruiser. Compared to the other Essence sailing yachts, it is a heavier boat, ensuring ample stability in open seas.

All onboard systems are designed for long-term, self-sufficient stays. Anyone spending weeks crossing the oceans wants to feel safe and comfortable, and that's exactly what this yacht provides.

It's your home on the water, and you feel that the moment you step aboard.

Specifications

- Hull length: 22,25 m
- Overall length including bowsprit: 24,65 m
- Waterline length: 18,65 m
- Beam overall: 5,58 m
- Standard draft: 3,00 m
- Displacement (lightweight): 43.000 kg
- Keel and keel structure weight: 14.000 kg

Prices start from: € 4.000.000,-

Construction

At Hutting Yachts, our team is ready to use their knowledge and expertise as yacht builders to craft your Essence yacht to your exact specifications. The design is set, and the interior and deck layout can be tailored to match your preferences and sailing style. Once completed we ensure that you fully understand how to operate your new sailing yacht. Additionally, we offer limitless services for transport and maintenance because, as sailors ourselves, we understand the desire for freedom and flexibility without being tied to one location.

HULL CONSTRUCTION

Material stiffness is one of the key features of the Essence line, achieved through the yacht's foundational construction, which includes carbon reinforcement with longitudinal stringers. These properties provide high hull stiffness, allowing both the hull and rigging to perform at their peak. Another defining characteristic of the Essence line is the meticulous attention paid to weight and balance. The batteries, water, fuel tanks and engine are positioned centrally and as deeply as possible within the hull. This ensures that the Essence is a well-balanced yacht, delivering an exceptional sailing experience.

The Essence line has been developed using the latest technologies. We employed state-of-the-art design programs with 3D modeling to create the yacht with the utmost precision. Vacuum injection and a sandwich construction with HD foam core were utilized during production.

Let's create your Essence

As a passionate yacht-building family since 1975, our shipyard stands as one of the most experienced yacht builders in the Netherlands. We are excited to use our expertise and knowledge to guide you through every step of creating your Essence yacht.

At Hutting Yachts, building your yacht means creating a truly exclusive sailing vessel that turns heads in the harbor and is guaranteed to be tailored to your desires.
